Department Science
Cluster Business
Author EDUGGAN
Credits 5

Level: Intermediate

Description of Module / Aims

This course aims to introduce the student to the strategy of food business in Ireland, the EU and internationally. A broad review of the environment in which it operates culminating in a student led quantitative and qualitative research into new consumer products in Ireland.

Programmes

BUSS-0045	BSc (Hons) in Food Science and Innovation (WD_SFSIN_B)	3 / 6 / M
BUSS-0045	BSc in Food Science with Business (WD_SFDSC_D)	3 / 6 / M

Indicative Content

- Food business strategy in Ireland, the EU and internationally
- The market forces influencing the main players in both local and global markets
- Research of food market trends and selected food companies' strategies
- Application of both qualitative and quantitative consumer food research methods
- Research, compilation and presentation of a food business report

Learning Outcomes

On successful completion of this module, a student will be able to:

1. Analyse the strategies of key players operating in the food business, both locally and globally.
2. Examine and identify the market forces influencing the development of food business strategy.
3. Complete both qualitative and quantitative food business research.
4. Develop a food business report and recommend appropriate strategies.
5. Prepare presentation and defend report findings.

Learning and Teaching Methods

- Lectures including guest lectures.
- Class and group discussions.
- Case studies.
- Self study of assigned readings and texts.
- Pre-class preparation of readings and case-studies for in-class discussion.

Assessment Methods

	Weighing	Outcomes Assessed
Continuous Assessment	100%	
<i>Assignment</i>	70%	1,2,3,4
<i>Presentation</i>	30%	5

Assessment Criteria

<40%: Very little knowledge and understanding of the subject matter. Unable to carry out critical thinking.

40%-49%: Demonstrate a limited knowledge of the subject matter. May have some problems with critical thinking and problem solving.

50%-59%: Demonstrate satisfactory general knowledge of the main issues within the subject.

60%-69%: Demonstrate skilled and sound knowledge of the subject matter. Show ability to analyse and logically discuss in an effective way. Good critical thinking and a high level of competence and efficiency in theoretical areas of this subject.

70%-100%: All of the above to an excellent level. Demonstrate authoritative handling of complex material and a highly developed and extensive understanding of the subject.
