Start-up Lab Learning Log (A06382)

Short Title:	Start-up Learning Log	
Faculty	Science and Computing	
Department	Management and Organisation	
Cluster	Business	
Author	CGATELY	
Credits	10	Level: Intermediate

Description of Module / Aims

The Start-up Lab learning log is an important tool in the development of reflective learning skills. The log should provide a reflection on key learning opportunities the student was exposed to during the semester. These can include academic, work based or personal development learning opportunities. Students should integrate their learning on a practical and academic level i.e. bring theoretical learning and knowledge, past and present, to bear on practical 'learning experiences' through reflection and vice versa.
