Farm Placement (A08661)

Short Title: Farm Placement
Faculty Science and Computing
Department Science
Cluster Placement and Projects
Author VNYHAN
Credits 30

Level: Introductory

Description of Module / Aims

This module is designed to give the student experience of practical farming on a high quality farm. The placement is organised by Teagasc, and the student will gain as wide an experience as possible of a variety of farm enterprises. The student will be monitored by the host farmer and by Teagasc staff, and the student will keep a daily diary of the tasks he/she carried out on the farm. Students are also encouraged to seek placements overseas, e.g. New Zealand, UK.

Programmes

PLAC-0008 BSc in Agriculture (WD_SAGUL_D)

2 / 4 / E

Indicative Content

- Placement requirements: 12 weeks on a host farm organised by Teagasc; the student will be punctual, use safe working practices, avail of learning opportunities
- Performance of farm work: work output and quality, dependability, performing tasks in accordance with directions, using initiative, adaptability and apply theory to practice
- Relating: communicating and working with co-workers, with the host farmer and family members, and with people who do business with the farmer
- Record of placement experience (Daily Diary): particulars of features of the host farm, inventory of machinery and implements, inventory of livestock movements, enterprise details, and end of placement summary

Learning Outcomes

On successful completion of this module, a student will be able to:

1. Construct a professional CV to secure placement.
2. Plan learning objectives for the placement.
3. Operate independently and/or as part of a team towards the set objectives of the farm enterprise and relate effectively to co-workers and host farmer family members.
4. Apply, under supervision, their agricultural knowledge and skills in the day to day planning and operations on the farm.
5. Practise safely, agriculture related skills and employ both good environmental practices and those associated with good animal health and welfare.
6. Examine their personal, professional and technical achievements on the placement.
7. Communicate their activities and assessment of the farm enterprise in a professional manner.

Learning and Teaching Methods

- Practical learning experience from a host farmer.
- Practical learning experience from a host farmer and keeping a weekly diary.
- Working and relating with other farm workers, as well as the host farm family.

- Practical learning experience of environmental implications of farming and keeping a weekly diary.
