Work-based Project (GMP) (A09763)

Short Title: Work-based Project (GMP)
Faculty Science and Computing
Department Science
Cluster Placement and Projects
Author BWHELAN
Credits 10

Level: Introductory

Description of Module / Aims

The aim of the work-based project (WBP) is for the student to complete a project, based on-site, that is undertaken with an external organisation where the student is employed.

Programmes

PROJ-0031 Higher Certificate in Science in Good Manufacturing Practice and Technology 2 / 4 / M
(WD_SGMPT_C)

Indicative Content

- The student completes a project report that reflects the business needs of the organisation
- The scope of the project must reflect the manufacturing or compliance context of the programme
- The host company and the course board will co-operate in allowing the student to complete a work-based project

Learning Outcomes

On successful completion of this module, a student will be able to:

1. Define and describe Good Manufacturing Practice and Technologies as implemented by the host enterprise.
2. Employ the skills learned and acquired to fulfil defined roles and responsibilities.
3. Review pharmaceutical operations.
4. Plan a project to enhance employability within the host organisation.
5. Complete a Final Learning Report and MS PowerPoint presentation.

Learning and Teaching Methods

- Work based learning

Assessment Methods

	Weighing	Outcomes Assessed
Continuous Assessment	100%	
Project	100%	1,2,3,4,5

Assessment Criteria

- <40%:** Very limited knowledge and understanding of the subject matter. Lacking in technical ability/skill and understanding to carry out practical/professional tasks.
- 40%-49%:** Demonstrate a limited knowledge of the subject matter. Show some technical ability/skill in carrying out and reporting on practical/professional tasks. Attempt made to meet objectives

and carry out independent study and research. Final result lacks balance and arguments undeveloped.

50%-59%: Demonstrate satisfactory general knowledge of the main issues within the subject. Logically and competently carry out practical/professional tasks.

60%-69%: Demonstrate sound knowledge of the subject matter. Show ability to analyse and logically argue in an effective and mature style. Demonstrate initiative and the ability to criticise methods used and appreciation of experimental design when carrying out practical/professional tasks.

70%-100%: Demonstrate authoritative handling of complex material and a highly developed and extensive understanding of the subject. Provide well focused analysis and convincing argument on the subject.

Learning Modes

Learning Mode	F/T Hours	P/T Hours
