

ICT for Forestry

Science

May, 2026

Short Title: ICT for Forestry
Faculty Science and Computing
Department Science
Cluster Forestry
Author CCAHILL
Credits 5

Level: Introductory

Description of Module / Aims

This module aims to provide the student with skills to expand their written and oral communications skills in an academic and professional manner, for both the online and offline environment. Students will appraise the value of the use of modern technology for research and current awareness. Students will have practical exposure to advanced concepts in search techniques, word processing, spreadsheets and presentations.

Programmes

ICTS-0001	BSc in Forestry (WD_SFORS_D)	1 / 2 / M
ICTS-0001	BSc in Forestry (WD_SFORS_D)	2 / 4 / E

Indicative Content

- Advanced writing and word processing: academic writing and associated word processing features for a variety of document types
- Advanced spreadsheets: edit, format and visually represent data sets with the assistance of appropriate formulae and charts
- Research and evaluate information while considering plagiarism, copyright laws and an academic referencing style
- Present a clearly defined and structured oral presentation using presentation software

Learning Outcomes

On successful completion of this module, a student will be able to:

1. Demonstrate an ability to create attractively displayed documents using word processing and exploit the various advanced editing and formatting features of a modern package.
2. Use appropriate software to edit, format and visually represent data sets formulae and charts.
3. Use appropriate search techniques to find reliable and reference suitable sources of information.
4. Communicate effectively with the assistance of appropriate presentation software.

Learning and Teaching Methods

- Computer-based practicals: to provide the student with the skills and confidence to be able to perform applications tasks in a computing environment.

Assessment Methods

	Weighing	Outcomes Assessed
Continuous Assessment	100%	
Portfolio	65%	1,2,3
In-Class Assessment	20%	2
Presentation	15%	4

Assessment Criteria

<40%: Poor presentation and/or poorly communicated and formatted assignments.

40%-49%: Presentation adequate, communication and technology use adequate.

50%-59%: Presentation of material is competent with clear ideas and logical structure, few if any grammatical and spelling errors. Competent display of IT skills.

60%-69%: Presentation of material is logical and persuasive, indicates strong communication and technical skills.

70%-100%: Excellent communication of material supported by the use of correct conventions and excellent use of technology.

Learning Modes

Learning Mode	F/T Hours	P/T Hours
Practical	48	
Independent Learning	87	

Essential Material
